

4FT MULTI-FOLD WHEELCHAIR RAMP

Compact, Portable Access – Built for Everyday Convenience

Make everyday mobility simple with the Ramptec 4 Foot Multi-Fold Wheelchair Ramp. Designed for quick setup and effortless transport, this compact aluminium ramp is the perfect solution for low-height access points such as doorways, small steps, and thresholds.

Ideal for both residential and light commercial use, this ramp is a reliable alternative to traditional threshold ramps, offering greater flexibility with a portable, foldable design.

Why Choose the 4ft Ramp?

Perfect for smaller rises, this ramp delivers safe and stable access without the bulk of longer ramps. Whether you're assisting a wheelchair, mobility scooter, or trolley, it provides smooth, secure transitions every time.

Key Features

- Lightweight aluminium construction for easy handling
- Multi-fold design – folds compactly for storage and transport
- Can be split into two separate ramp tracks
- Anti-slip grit surface for maximum traction
- Built-in carry handle for portability
- Suitable for indoor and outdoor use
