

6FT MULTI-FOLD WHEELCHAIR RAMP

Smooth, Safe Access for Higher Entry Points

The Ramptec 6 Foot Multi-Fold Wheelchair Ramp offers the ideal balance of length and portability, making it a popular choice for homes, businesses, and mobility users needing safer access over higher steps.

With a gentler incline than shorter threshold ramps, this model improves safety and ease of use for both users and carers.

Designed for Everyday Reliability

Built from high-strength aluminium, this ramp is engineered to handle frequent use while remaining lightweight and portable.

Key Features

- Strong yet lightweight aluminium design
- Multi-fold for compact storage and transport
- Can be separated into two ramps
- Slip-resistant grit surface for added safety
- Easy-carry handle for convenience
- Suitable for indoor and outdoor environments

Specifications

Size: 180cm x 73cm

Weight Capacity: 18.3KG

Load Capacity: 272kg

SKU: RTMFG1942

BEST USE CASES

Ideal for medium-height steps, access points, and as a portable upgrade from fixed threshold ramps.
