

7FT MULTI-FOLD WHEELCHAIR RAMP

Extra Length for Safer, Lower Inclines

The Ramptec 7 Foot Multi-Fold Wheelchair Ramp is designed for safer access over higher elevations, providing a smoother, more gradual incline for improved usability and comfort. Compared to shorter threshold ramps, this longer design significantly reduces effort and increases safety for wheelchair and mobility scooter users.

Built for Performance & Portability

Despite its length, the ramp remains portable thanks to its clever multi-fold design and lightweight aluminium construction.

Key Features

- Heavy-duty aluminium build
- Multi-fold system for easy storage
- Splits into two sections for versatility
- Non-slip grit surface for secure footing
- Carry handle for transport
- Suitable for indoor and outdoor use

Specifications

Size: 210cm x 73cm

Weight Capacity: 20.8KG

Load Capacity: 272kg

SKU: RTMFG1943

PERFECT FOR

Higher steps, raised entries, and situations where standard threshold ramps aren't long enough.
