

8FT MULTI-FOLD WHEELCHAIR RAMP

Maximum Length for Ultimate Accessibility

The Ramptec 8 Foot Multi-Fold Wheelchair Ramp delivers the longest reach in the range, providing the safest and most gradual incline for higher access points.

Ideal for homes, commercial spaces, and mobility applications where safety is critical, this ramp outperforms traditional threshold ramps by offering superior incline control and flexibility.

Built for Performance & Portability

This ramp is perfect for users who require extra length to reduce strain and improve safety during loading and unloading.

Key Features

- Premium aluminium construction for durability
- Multi-fold design for compact transport
- Can be divided into two individual ramps
- High-traction anti-slip surface
- Carry handle for ease of movement
- Suitable for all weather conditions
